Other plans?
MECC spring 06 2 classes
Return to MECC when kids are older and join RN
RN Transition 06
come back and bridge to rn
Continue pre-med or nursing anethetist Edu.
maybe return to mecc at a later date
Return later for RN program
RN Program in near future
Might return
might return
moving to florida
opening own child care center
Seek a better full time job
maybe return for associates degree
Bridge RN
move to Richmond and continue education
BS - va Intermont
BS in business administration
may transfer to King College
unknown
get a job with respatory
business
possibly nursing
to find employment in law enforcement
maybe transfer, hopefully get a job

bridge to RN
go on for AA
bridge to RN
bridge to RN
bridge to RN
work
RN program
continue education
unsure
continue with RN
police academy
return for polysonography
message therapy course in gray, TN
pharmacy school
become a teacher
Childhood development cert
pursue further education
preach the word of God
open my own shop
RN
get a degree in computer repair
take a few summer courses
finish teaching degree
finish teaching degree
a few summer classes before uva wise
keyboarding specialist
seek engineering degree

mining cert
Certification
Corrections Degree/State Police Career
want to work then maybe go back to college
get a bachelors in accounting
medical coding
medical coding
some courses just for fun
get Bachelors
finish associates degree
for summer
would like to further my education
own business
maybe transfer, hope to get a good job
take courses in coding
take extra classes
general studies transfer to computer science

What were the greatest challenges you faced as a student to finish your certificate or degree?
Finding the time and dedication with being a full-time wife, mother, employee, and student without quitting
I had problems with test anxiety
Being able to understand what the teachers wanted you to do
Getting through the math
Completing classes while working full-time
Being an older student was hard to find time to study. It teaches me ways to remember the material I've read
Balancing family and college life
Working while taking classes
Having enough money to stay in classes
Studytime
Completeing my English courses
Getting to class everyday on time. Starting over after 20 years. Trying to remember that this is a dream come true.
To be able to afford to get to classes with the rising gas prices and to be able to pay for all my books, tuition, and supplies
Being my first semester in college when I started
Finding the time to do the work required for English 111. After completing the class I don't believe I will be any better at writing than I was before. I think only the students who don't have high scores on the writing part of the compass placement test should take this as part of the PN program
Greatest challenges were that I had to be gone away from my children alot to complete my dream
Not being able to spend time with my family due to studying
Time for work and school (both full-time and care for kids) and money to pay bills and support family of 4 on part-time wages.
All the work I had to do
Time to do all required assignments
The hours and the ammount of driving required
Passing tests and classes
Trying to work and raise a family plus going to college full-time
Time issues. Family, School and work are hard to balance in such a intense program
A working single mother. Completing classes, preceptorship and clinicals and working my regular job

I'm an older student so being around teens was a whole experience in it's own
Trying to hold down a job and school at the same time
tests
Art 101
working full time plus going to school
Getting through the classes required while trying to work and balance family. Trying to find enough time to study.
Time
Finding time with work and being a mother of two
Public Speaking
Getting assistance with problems that arose with online courses. Computer problems.
Use of computers and all the Care Plans
Speech class
Financial problems and moving to a new location
money for classes - no assistance
Time and energy it takes to go back to school after years away from education
Being an older student and having little knowledge about office skills
Financial challenges
I faced many challenges like trying to work while attending college, having to repeat two nursing classes while in the program
I was just so determined I would have stayed at college, everyday just to finish this program. I am the first person in my family to go to college and now I will be graduating!
Dealing with staff in financial aid
Getting up in the morning after working all night
Trying to figure out each subject was a challenge
Time. time to complete and study assignments
working full time and attending college
Preparing for certification test
Daycare for children and working 3 other jobs try to raise 2 kids and being single parent home
1) stress 2) time involved as an adult time is something at a premium. This takes a lot of time

financial situation
balancing full time job and full time class schedule
learning something that I knew absolutely nothing about. Usually you have an idea about something before doing it, but with respiratory I knew nothing before starting the program
balancing my time as a full time student and working a part time job
I had to put more time into studying
respiratory therapy, pharmacology
I had to study hard
getting through it so I can get a good job and to do better in life
carrying a full school schedule as well as working full time
work, life, schoolwork
trying to work and complete school at the same time
going to school and working
going to school and working
My greatest challenge was going to school full-time and working full-time. My instructors were very understanding and worked with my schedule whenever possible
Having 4 kids and working full-time
Being an older student
The greatest challenge I faced was being 16 years old when I started
finding enough time to complete studies between work and attending classes
I had to discipline "myself" with a husband and three children to care for it wasn't easy. I wanted to make good grades and I did. I have a vision and a goal to get a bachelor's degree.
Keeping myself motivated enough to finish the work in each class along with a full-time job
juggling school and work
Finding time to study because of working full-time and 2nd semester requires a lot more writing
time money and home
clinicals
I am juggling school work and 3 children
juggling all the HOMEWORK work and homelife

maintaining my gpa being a full time student and working full time job
trying to find daycare services for my children while attending MECC
working full time while attending classes full time
Pharmacology dosage calculations
getting my brain to start learning again after being out of school since 1984
balancing time w/classes and my family
having 3 difficult teachers
time
english
my greatest challenge was getting into the classes I needed
I can honestly sat that I haven't faced ANY major challenges to obtain my degree
my greatest challenge was balancing a family a job and going to college
finding time to do the work and study
balancing a work load and freetime
time, learning how to prioritize to make sure you get time in for everything. school, work, and kids
to be a fulltime student and fulltime mother
money
having enough time for homework and project
my hardest problem was math class. I have never been a strong math person
building enough determination to finish all of my classes and participate more actively in classes and public
long hours
obtaining certain classes for my degree
choosing electives that I was interested in
math and public speaking classes along with juggling time between fulltime job and 3 children at home
speech class
keeping up with deadlines
time restrictions
time management

learning the new programs
maintaining my attendance due to personal life
trying to work and go to school full time
X's class. Financial & childcare
At the time I became a fulltime student last semester I had to quit work because of the math I needed had never been offered except for in the middle of the day. It was available that semester but I did not know it before I quit work. Also I had taken several classes I shouldn't have taken and that was frustrating and discouraging.
working full time and taking online classes
trying to attend my classes and work a full time job
working full time job and going to school
Getting to class on time and working fulltime while attending college fulltime
working while being a full time student and making it to class on time
homework and test
public speaking
the hardest part was disciplining myself to endure class and continue on in math
finding the time to take advantage of all mecc offers
Time management and staying motivated because I am an older student and mother of two school-age children and I work full-time
my entire experience at mecc has been outstanding
the greatest challenge I faced in preparing to graduate was over coming two semesters of remedial math. I was unprepared for the evaluation and as a result scored poorly
math was a problem for me. In high school some of my classes were sub-par
my greatest challenge was math
working full time and trying to find time to come
the constant work and dedication involved
learning how to public speak without being nervous
to keep up with technology advances and to apply it to my papers
money
going to school and working and being a full time mom
I have 2 children so just between raising them and working finding the time for school, daycare, and homework is a challenge

getting to class on time
I work full time and study habits weren't always good
No only was I going to school, but I also held a full-time job, so I was pretty much back and forth with school and work
Finding time. Hard to attend class when working 40+ hours a week
Passing all the test with very little notes because they were not available but I learned to deal with it so I guess its okay
having a babay in the last semester plus a full time job
just sticking with it was hardest
work and sickness caused some issues that did not allow me to attend classes
working a full time job, family, school, study time, trying to balance the load
working and trying to find time to study
making up my mind as to what exactly i wanted to do with my acedemic career
making sensible judgements about certain things
time management
I am not a good math student so it was hard for me in my math classes
deciding on a major
staying focused on school work
staying focused on school work
deciding on a major
I am not a good math student so it was hard for me in my math classes
time management
making sensible judgements about certainm things
making up my mind as to what exactly I wanted to do with my academic career
working and trying to find time to study
working full time family, job, school, study time. trying to balance the load
work and sickness caused some issues that did not allow me to attend classes
just sticking with it was hard
staying motivated
studing

Being an adult with a family. Trying to find time to study
financial obligations
Taking full time classes along with working parttime and being a single mom
trying to find time to work, study, and be a homewife
trying to remember everything that I can so that I can do my best when I enter my job
growing up
working and going to school at the same time
finding the time to study for tests
Balancing work and school - finding the time to complete homework and keep up with classes
Keeping homework on track, and the advisors picked for me
money
the generalized classes I had to take not relating to my major
working full time and going to school
Working a full time job and taking classes
Time management
Not being able to read and finally being able to read and understand what I read
Time management computer skills and improving on study habits
allowing time in my schedule to finish college and I've almost accomplished my associates degree in accounting
finding the time to dedicate to each class
gas prices
finding time between work and life to finish school
working and going to school
working, family, college work
finding the right classes to take
being a single mother and working while attending
RElearning how to study
Balancing school work and social time, traveling to school 4-5 days a week
Self confidence

As an older student I had to relearn how to study again
time to complete assignments; feeling overwhelmed at times
My greatest challenge was taking six classes which totalled 16 credits in the fall of 05
finding enough required class to fill a semester to be a full time student
the trouble I had in math and science
Managing time with my children while attending school
working fulltime and going to school fulltime
working and coming to school
trying to work full time and take classes as well as take care of a family
I struggled with math. I started out with failing grades, I finished with both A's in calculus
Being pregnant with twins and starting the fall semester back when they were just 3 months old
trying to find someone who is actually willing to help you
working full time and school full time
juggling 5 kids and a job as a single parent with school work
Finding the time to do school related work and work at my jobs
juggling all the classes
full time job
out of school a long time
Managing time between school and work
juggling college, housework, family, and a job
Having access to a computer and internet
working while attending MECC, time management
it has been hard to be a good wife and mother while working and being a student
trying to do school work and take care of three kids. being an older student.
staying motivated
learning the best way to study
Trying to care for my family and be a full time student
balancing the schedule, full-time work, and being a single parent

online classes
taking algebra
Trying to maintain a house, a job, and school all at the same time
getting to school because of my daughter

In what ways did MECC help you to stay in college?
By offering the online classes and nights. That is the only way I could ever have made it through school. The instructors were overall wonderful.
Provided positive environment and reassurance
Having someone to help me when I ran into problems
Great teachers
Financial aid and support faculty
Professors and Advisors (Gory Bumgarner) with a can do attitude. I was impressed by the fact the faculty took the time to help when I needed it.
Offering financial aid and on-line courses
The teachers were helpful
Good staff
Providing help through the Gaining Excellence Center where I received tutoring for my English courses
Convenience, affordable, small community college with lots of nice teachers. The ability to take my time and learn how to be a student again.
MECC helped me by telling me what types of financial aid was available and helping me apply for it. The class schedules were convenient for me as well because I am a mother of three
timely and accurate help from Admissions and financial aid
Kind and courtesy: Staff, concerned about your well being
Providing financial aid
They didn't. We lived with electricity at a time without groceries at times and without cable, internet and a home phone the entire time I did it on my own and with help from my mother.
Instructors help me to schedule
Financial Assistance
Flexible Scheduling

By allowing me to have financial aid and grants. Without these I would not have been able to continue with the program
Did not. Peers encouraged me to stay in program
I was very determined
It provided a great program that had a flexible time line for classes, etc.
Flexible schedule and close to home
it didn't
Advisors
various class choices ie. days and times
Providing scholarships and financial aid. Instructors that were willing to help understand and counseling when I was overwhelmed with life
Helping with anything I needed
They challenged you
The professors aided me in understanding the work and gave me confidence in public speaking
Getting financial aid
By help with finances of college
The teachers helped me stay focused and encouraged me.
Financial aid!
advising and pushing me to finish
faculty
Providing Financial Aid, Flexible schedules, tutoring
Financial aid, scholarships, grants
MECC nursing faculty persuaded me when not successful, not to give up, come back, and finish up
Different times for the same class, it helped me work out my schedules better.
The teachers encouragement
As a whole it was a good environment
Teachers seems to take interest in you and how you progressed
Financial aid. Teachers more than willing to gelp with any type of problem that would occur
being interested in me as a student
decreased out of state tuition fees

I got support from my professors, the financial aid money and left over money helped me. my professor also got me help with RADA they helped w/gas money and other cost
excellent teachers encouraged me
by helping financial aid to help pay for my education
good class hours wonderful staff good learning environment
financial aid
being able to work my schedules in together
knowing my degree of choice was shorter than others
Roger Thompson very great teacher and friend Mike Cook very good advise giver
my degree was shorter than others
because I wanted to do something with life and be the first person in my family to graduate from college
the reassurance that once I completed my program I could get a better job and make a better living for myself
I knew I wouldn't have much of a life if I didn't go to college
my degree had an excellent schedule where I could work school job and anything else into it
they were nice and helped in any way
it was local and close to home
it was local and close to home
Instructors working with my schedule. Business office was helpful with forms I needed to complete and send to the VA so my education was paid for
they provided online classes during the times I could not be on campus. Teachers were really understanding and helpful
Financial Aid
Financial Aid
offering web classes as well as video classes therefor allowing me to take more classes and graduate early.
the staff are wonderful, helpful people. They were always there to get you the help you needed
Great classes and teachers that were very interesting. A great advisor/instructor who believes in all her students
a lot of our professors helped me to stay focused and not give up
the teachers I feel they really do want you to make it and not give up
it help me to know that I could better myself
offering night and evening classes

classes on the web, night classes
seeing light at the end of the tunnel
gave me the challenge to stay focused
the instructors I have had are very encouraging as well as my fellow students
financial aid and very helpful people who work at mecc and encourage student to keep trying
Wonderful instructors and teachers that keep encouraging you to stay in college
close to home and family
the friendliness and helpfulness of the staff
help me stay focused
mecc helped me stay in college by providing online courses that could be beneficial by allowing me to work outside of the school
MECC provided a low cost option as opposed to a university in which to start my field of study
my instructors always encouraged me and offered help when I needed it
good faculty support
the faculty was wonderful. size of classes put you on a more personal basis
very encouraging wonderful instructors in LPN program
to help in every way when I felt like giving up
low tuition
by tutoring resources to help me with projects and etc.
MECC had teachers that were willing to help. i made from of the best friendships I have ever had
by allowing me to escablsh my collegiate career affordably
close to home
it was very helpful and dependant
by only having classes three days a week
by offering off campus and internet classes
AIM scholarship!!
the environment here is great
distance education
online and night courses

giving me a future
offered flexibility to conform to my professional life
because they offered distant learning
Online availability and night classes because I work full time 8-4:30
offering night classes financial aid online classes and being fairly close to home
offering a lot of off campus and online classes because i couldn't attend campus classes due to my work schedule
encouragement and providing classes available to working students
they allowed me to plan my school around my job. online classes.
the simple matter and good teaching also class size
teachers simplify the materials small class size make 1 on 1 time possible
being understanding and working hard to help me achieve my goals
internet and video courses
they were always helpful and would lend a hand and give me assistance
financial aid and helpful teachers/advisors
they make it flexible to take classes
the teachers and staff were friendly and encouraging and the gain lab provided me with tutoring to help me through difficult courses
excellent support from the faculty and ease of scheduling requirements
mecc helped me to stay in college by providing me the oppourtunity to take classes at no expense to myself
financial aid was a big help for me in college
mecc had a tutoring program
teachers
their help and efforts were really appreciated
mecc helped me stay in college by having a flexible class schedule that I could work around my daily work schedule
the staff at mecc is understanding of older students and provide us flexiblity to adjust our schedules
low cost, fairly close
by always being friendly
I definately appreciate the help of financial aid, without it I would have never got to finish
nice professors that understand schedule and other problems

The people were very helpful and actually tried to work with me on smoe things
they worked with my work schedule
everybody was very helpful
providing schedules that allowed me to have a fulltime job
allowing me to attend with financial aid after hardships that caused my grades to drop
online courses
educational advancement and opens the job market
great instructors
at the time its what I can afford
the AIM scholarship and lower tuition as well as small classes
the aim scholarship and lower tuitions and small classes
at the time it's what I can afford
great instructors
educational advancement and opens the job market
online courses
allowing me to attend with financial aid after hardships that caused my grades to drop
by providing a low cost education with the help of financial aid and the work study program
good working staff
Financial support seminars on how to manage time
professors were always fair
tutoring through the gain program counseling through student advisors recognition from the college for my acheivements.
the GAIN program was very helpful and I always knew where to go if I had any questions.
To me my professors all helped me with my problems in class and out. they helped me to do better and everyone is friendly.
no matter what happened the instructors supported me. Thank you.
classes needed to succeed
motivated me to stay
By providing flexible scheduling.
Giving me a job

money
the great networking department and work study
financial aid, advisors and teachers encouraging me
by offering classes online or video
online classes were a tremendous help
The professors and teachers helped me and their help made it possible for me to graduate. MECC made my dream come true -- to graduate from college
Financial Aid - offering online classes and especially the encouragement understanding and support of the professors and staff in gain lab
I worked in factories before I started college and the professors understand that people have jobs along with college
good teachers that helped explain lessons
friendly and helpful staff
location
better future
The professors are a great inspiration and help in all areas
availability of classes
My professors made things easier to understand with their patience and understanding when I ask questions
all my teachers and advisors encouraged and supported me every step of the way. The help I recieved from everyone was a great help.
By offering online classes, which made class convient. Also I had a wonderful Advisor who helped me stay on track as well as great advise on classes and career. I had great teachers that really worked with me through every situation whether it be weather, sickness, or internet failure.
The instructors were willing to help at any time available
by offering work study and a flexable schedule
continuous support from faculty
If I could not take internet courses I could not have taken any courses.
Flexible class schedules and web based classes student comradery
evening and online courses
MECC helped me stay in college by offering most of the classes I needed either online or video classes
good teahcers!!
the instructors worked with me when things came up that I had to be absent so I would not fall behind. The internet classes helped also.

none, it is the only college I could afford to go to
great advising really helped
availability of online and off-campus classes
I had the opportunity to be involved in the work study program and participate in many extra curricular activities
allowed me to take it at my own pace
web courses
web courses
Professors helped me to not give up and also stay focused
by financial aid, offering night classes and web classes
the library - long hours and plenty of computers available for students
Friendly, helpful environment. Great faculty and club participation
the patience and encouragement of the instructors
friendly instructors
putting me with people who were able to work with me and motivate me further
flexible schedules and online classes
Helped me stay determined, helped financially.
Financial Aid
gave me a second chance to prove I wanted my education
my advisor
the teachers made the classes interesting
Convenient location
it gave me time away from home

In which program did you receive an award?
