

Associate of Applied Science Environmental Science

PURPOSE: The Environmental Science student will take course work from a wide array of natural resource offerings. This will prepare the student to work in all areas of environmental science related jobs.

Special Considerations: Students are required to take English and mathematics placement tests. It may be required for you to correct any deficiencies in the developmental studies program. You may not take a course out of normal program sequence without the approval of your advisor. Approval will be based on practical experience and courses previously completed. You may receive regular college course credit for on-the-job experience or vocational school training if it is validated and approved by the College. If you feel you may benefit from this, you are urged to contact your advisor.
