MECC recommends that any student enrolling in a program at MECC leading to external licensure or certification contact the state board, or agency of the program in the state which they wish to practice, for the most complete and up to date information regarding licensure, registration, and certification. In addition to educational requirements, an agency or board may require additional criteria be met for licensure, certification, registration, etc. Interested students can click the License Finder | CareerOneStop website for contact information of state licensing agency bodies, by program and/or by state. Students can also investigate if the occupation requires a license on the License Finder link on the Licensed Occupations | CareerOneStop website.
