

GRADUATES AND AWARDS

A graduate will only be counted one time in an academic year. If a graduate received two awards, the graduate is placed under the highest degree level. Prior to 2007-08, if a graduate received more than one award in a program, only one award was counted. The number of awards was limited to two per student per year, at the highest level. The VCCS total is the official count for the number of graduates.

GRADUATES AND AWARDS

MECC graduate totals include all same-level recipients. For example, a graduate with an award in General Studies and Science is counted twice, which is a duplicated number. The duplicated number of graduates includes only the highest award a graduate received. For example, a graduate with Accounting and Management awards (both AAS degrees) will be counted twice. However, a graduate with an Accounting degree and an Accounting certificate will only be counted as a graduate once (for the degree), but both awards will be counted.
