	Summer		Fall		Spring	
	Headcount	FTES	Headcount	FTES	Headcount	FTES
2013-14	890	385	2,924	1,808	2,493	1,530
2014-15	810	359	2,718	1,642	2,385	1,489
2015-16	889	354	2,718	1,693	2,516	1,521

2017-18	822	330	2,684	1,588	2,293	1,320

Fall term enrollments account for the greatest portion of annual enrollment. The 2009-10 year had major increases in headcount and FTES in the fall and spring semesters, which continued into 2010-11. There have been major declines across the VCCS in the last five years.

**TABLE 3.4
ENROLLMENT BY PROGRAM TYPE**

	Total Enrolled	A&S	AAS	Certificates	Career Studies	Unclass.
2013-14	3,834	27%	20%	5%	12%	36%
2014-15	3,620	24%	19%	5%	14%	39%

2017-18	3,560	18%	18%	5%	14%	46%
Total	18,380	21%	19%	5%	14%	41%

Career Studies programs have increased with new program offerings in recent history. Certificate enrollments have dropped. After stabilizing, Unclassified enrollments declined, even with continued growth of dual enrollment students, though, with the decrease in enrollment, this percentage has risen again. A&S enrollments have had a general decline, though there has been a switch between A&S and AAS students in 2012-13 due to the effective elimination of "pre-health" programs, with those students largely being put into General Studies.

Total	18,380	7,761	42%	13.7	10,619	58%	5.6

Average credit load is fall data only.

Part-time students accounted for nearly two-thirds of MECC's enrolled students throughout the college's history. However, the percentage declined and stabilized in the mid-50% range.

STUDENTS ENROLLED IN OFF-CAMPUS CLASSES**

	Total Enrolled	Off-Campus		Other Locations

Total	18,380	6,502	35%	11,878	65%

*To be classified as off-campus, a student needs only take one off-campus course.

Consistently, one-third of students enroll in non-distance class(es) away from campus. Off-campus classes are being affected by students taking distance education classes, though dual enrollment classes combat the decrease.

**TABLE 3.7

	Total Enrolled	Night		Other Only	
		Number	Percent	Number	Percent
2013-14	3,834	994	26%	2,840	74%

2017-18	3,560	826	23%	2,734	77%
Total	18,380	4,813	26%	13,567	74%

*To be classified as a night student, a student needs only attend one night course.

Just over one-quarter of students attend at least one night course, though the percentage increased through 2007-08. With increases in distance education classes, night class enrollments have declined from previous years.

Total	18,380	27%	32%	9%	14%	9%	7%	2%	25

Although the majority of students are between the ages of 18 and 21, average student age is 25 years old, though the average age has dropped from previous years, due in large part to increased dual enrollment students.
